COLOUR PALETTE

True luxury lies in the details—the quiet confidence of finishes that elevate a space without ever overpowering it. Our refreshed hardware palette was curated with that principle in mind. Drawing inspiration from nature's most timeless elements—earth's subtle tones and the brilliance of metallic accents—we've created a collection that feels both enduring and sophisticated.

Each finish is designed to harmonize effortlessly with any material, color, or style, allowing you to craft interiors that are both distinctive and timeless. This is more than hardware—it's a refined canvas for your artistry, a palette that enhances the beauty of your designs and speaks to the elegance of true craftsmanship.

Matte Aluminum

Matte Aluminum is a timeless, neutral finish that complements an extensive range of cabinet colors. It provides an understated and elegant look to each closet, while adding a finishing touch that pairs well with a bright touch of chrome. Select TAG Matte Aluminum accessories come with Chrome finishes on accent components.

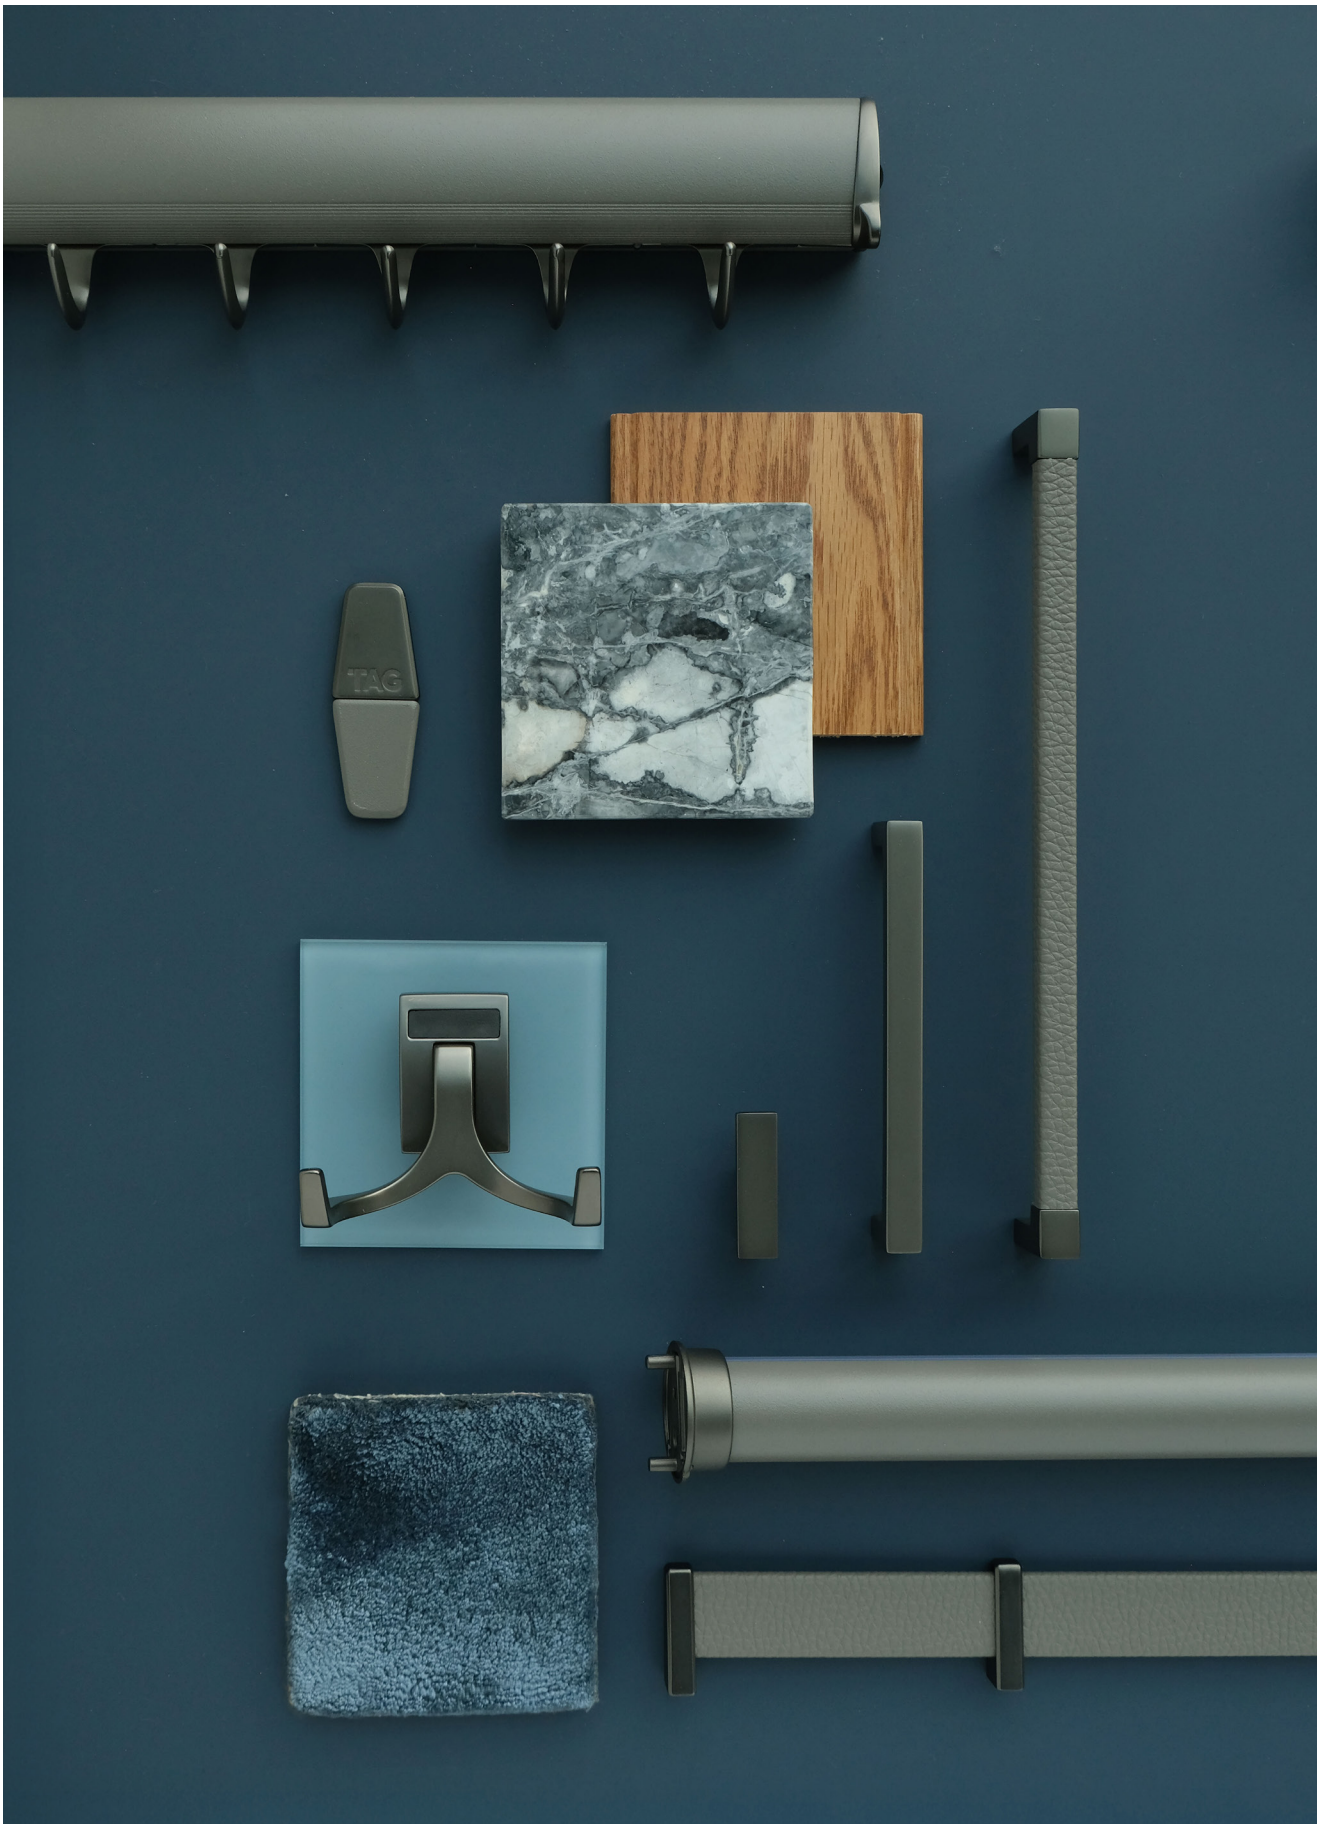

Matte Nickel

Matte Nickel is a classic, clean finish that adds a subtle touch of warmth. The neutral color is a great match for either dark or light cabinetry and the underlying warm tone makes it pair equally well with grey or beach fabrics and any of the faux leather products.

Matte Gold

The statement that our Matte Gold finish makes is both bold and refined. This luxurious tone is available across a wide range of TAG Hardware products allowing for a fully coordinated design throughout the closet, room, and home. It pairs well with our Seashell fabric, as well as any of TAG's faux leather colours.

Slate

The darker metallic Slate finish has cooler tones that bring out greys in darker cabinetry, or contrast boldly with lighter colors. Slate is versatile finish that also works as a stabilizing neutral against coloured cabinetry.

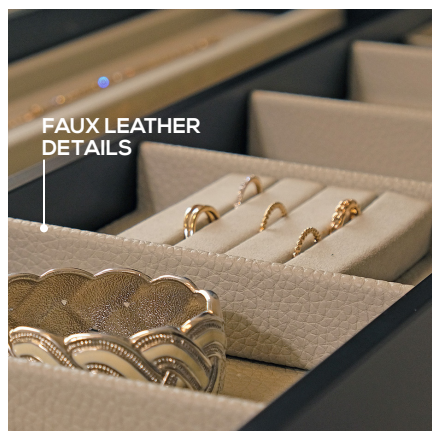

Black

Our darkest finish, Black, provides a bold accent for your closet designs. This timeless, rich tone offers impact and contrast to larger spaces and pairs with any wood, fabric or faux leather choices in the TAG Coordinated Hardware system.

LUXURIOUS TEXTURES

Pair TAG Hardware's metallic finishes with the softness of faux leather or woven fabric.

By combining these unique materials in a variety of colors you can create designs that maintain an overall palette of coordination while adding beauty, elegance and texture.

Our *refreshed colour palette* of metallics offers a dual texture component in many of our popular products. The textures vary from silk touch to suede touch, enhancing the overall look and feel of the product.

Faux Leather adds a *luxurious texture* and warm tone to any room or application. Its sleek and timelessly stylish look provides an extra touch of elegance that perfectly complements many design styles. With leather-look, you can fully customize a closet or room to meet both functional and aesthetic needs.

Whether you're looking for a modern or classic feel, woven fabric is an excellent choice for providing an extra touch of style. Woven fabric accents add a *subtle texture, warmth, and depth* to the closet design.

ABOUT CODE NUMBERS

The Symphony Wall Organizer models have two TAG item numbers.

The first item code is for metal finish Vertical Rails and End Caps.

The second TAG item code is for the faux leather Horizontal Bars.

The two TAG item numbers are equivalent to a single Hafele item number.

The following example is for a 42" wide Symphony Octave with Matte Aluminum verticals, and choice of three horizontal bar colours.
